

Designer angelettiruzza

The gently curved shape backrests of the Bordone up amplifies the feeling of protection, care, and welcome that the collection emanates. Equipped with one or two swiveling ending elements, the Bordone up is a space that invites sharing or intimacy based on the feeling of the moment, it is a soft cocoon where to take refuge in search of privacy or a stage for family life.

The movement that characterizes Bordone as well as making the perfect interpreter of the changing needs of contemporary life places as a central element of the living room in constant dialogue with the dining area or the TV area. A simple movement of the feet is enough to change the point of view and the domestic landscape.
