

POUF BOW

Design: Arianna Crosetta (Studio MILO)

Year: 2025

DESCRIPTION:

Bow, designed by Studio Milo for Turri, under the creative direction of Arianna Crosetta, is inspired by the curved shape of an arch, a symbol of tension and balanced lightness. A pouf that, in its elegant and slender structure, stands out for a design that combines comfort and refinement, with a padded part, available in leather or fabric, designed to guarantee an optimal seating experience in the living room. The external shell, covered in leather, completes the design with a feeling of visual continuity. The focal point of the Bow collection is the detail of the pin, a metal element that expresses precision and refinement, emphasizing the distinctive character of the collection.

POUF BOW

Design: Arianna Crosetta (Studio MILO)

Year: 2025
