

**JOEL Bed**

Designer: Marco Acerbis

Year: 2025

**DESCRIPTION:**

In the sleeping area, the Joel collection, designed by Marco Acerbis for Turri, interprets design as an enveloping gesture capable of embracing volumes, materials and proportions. The Joel bed tells its story through generous shapes that meet a solid structure, creating a balance between welcome and stability. The play of contrasts between leather and fabric adds visual depth, defining an aesthetic that leaves room for the complementarity of rigid shapes and softer volumes.

## JOEL Bed

Designer: Marco Acerbis

Year: 2025
