

KENOBI Round table

Designer: Marco Acerbis

Year: 2025

**DESCRIPTION:**

Kenobi is a table that plays with the opposing forces of matter, combining solidity in the structure with visual softness. The result of Marco Acerbis' first collaboration with Turri, this product is born from the encounter between generous volumes and tapered lines: the circular or rectangular silhouette, the important dimensions and the carefully selected materials come together to tell the stylistic evolution of the brand, which continues to stand out for its savoir-faire.

The company reserves the right to make changes to the models without notice. The information given here is based on the latest data published on the price list.
