

NOOK Coffee tables

Designer: Arianna Crosetta - Studio MILO

Year

**DESCRIPTION:**

The versatile and lightweight side table, available in two different heights, is designed as a support surface next to a sofa or armchair, or as a discreet but functional element in a lounge space. The coffee table with its cylindrical shape was designed with the marble base full up to half height, then continuing in a leather-covered C. The base is equipped with a metal plate to ensure greater stability, while the glass top houses a glossy lacquered wooden tray.
