

NOOK Consolle

Designer: Arianna Crosetta - Studio MILO

Year: 2025

DESCRIPTION:

The console plays with proportions and the combination of materials available in the catalogue. The structure, entirely covered in leather, creates an effect of continuity between the surfaces, emphasizing the delicacy of the finishes. The top is available completely lacquered for a more compact and contemporary look. Also for the console, the marble pillar can be made in the Calacatta, Nero Marquinia, Emperador Light, Verde Alpi and Botticino finishes, to give an aesthetic coordinated with the other elements of the collection.

NOOK Console

Designer: Arianna Crosetta - Studio MILO

Year: 2025
