

BONALDO

Mille

Designer: Bartoli Design

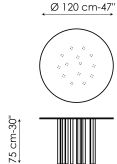

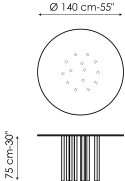

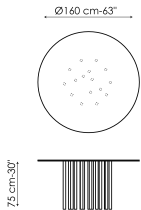

A design conceived to furnish and characterise the spaces, thanks to the transparency of the glass top combined with the numerous steel legs, thin tubular elements in chrome-plated steel that vary in number and position, depending on the sizes and shape of the top, in order to ensure maximum stability and visual coherence. Mille is a fixed table that seems to possess all the harmony and dynamism of a transparent body in motion. Suitable

for private residences and contract contexts, it is available with round, square or oval top and in many sizes in order to meet all hospitality needs. In the rectangular shape, Mille can also be made with acid-treated glass or ceramic top and legs in painted metal or with matt copper, matt brass or chrome-plated finishes.
