

Designer Giuseppe Bavuso, year 2013

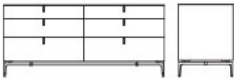

Meridien complements are essential in shape
but sophisticated due to the details that make them unique:
the small flush handles seem invisible because they enable continuity of the surface;
the steel upper top is painted as is the base.

Meridien

Frame in matt lacquered MDF or in painted or heat-treated oak. Drawers with braking metal guides. Front in matt lacquered MDF or in painted or heat-treated oak. Metal handles. Top and base in painted steel.
